

Overall Minor Requirements

- 18 senior-level, non-duplicative biology credits
- A minimum of 6 credits at the 300- or 400-level

Required Courses for the Biological Sciences Minor

The courses listed below are not part of the biological sciences minor, but they are prerequisites for required minor courses.

- BIOL 107 Introduction to Cell Biology
- BIOL 108 Organisms in Their Environment

Minor Requirements

18 Credits

Choose 3 credits:

- BIOL 207 Principles of Genetics
- BIOL 208 Principles of Ecology

Choose 15 credits from senior-level Biochemistry, Biology, Botany, Genetics, or Zoology courses:

- _____
- _____
- _____
- _____
- _____

Important Planning Notes

1. Courses required for the minor may be used to satisfy the breadth requirements in a Bachelor of Arts or Science degree. Please refer to the applicable degree planner for details.
2. Students are required to consult the MacEwan University academic calendar to ensure they meet prerequisites for all courses they enrol in.
3. **BIOL 107** and **BIOL 108** must be completed in the first year of a program and can be taken in either order.
4. All students minoring in Biological Sciences should take careful note of the term in which courses are offered; many essential senior-level Biological Sciences courses are offered only once a year. For example, **BIOL 208** is only offered in the Fall term, so students who neglect to take **BIOL 208** early in their degree may significantly set back their graduation date. Some senior level courses are offered in alternate years.
5. Please keep in mind that course offerings will vary from academic year to academic year.

Biological Sciences Minor (18 credits)

Total Credits: _____

Biological Sciences Course Offerings

Please refer to the academic calendar or MacEwan.ca/Science > Disciplines > Biological Science for further information regarding course offerings.
