➤ Important! Please see the back of this page for planning notes. ◀

This planning sheet should be used only as a **guide** for course planning and it should be used in conjunction with the Bachelor of Science Degree Planner. Remember: not all courses listed are offered each year and course offerings are subject to change. In the event of a discrepancy between the information presented on this sheet and that available on myStudentSystem, the information on myStudentSystem will be considered accurate.

## IMPORTANT PLANNING NOTES

1. **PSYC 105** can be used to satisfy either the Social Sciences or Arts core requirements in the Bachelor of Science degree. **PSYC 104** will be used to fulfill options credits.
2. Students are required to consult with the MacEwan University Academic Calendar to ensure they meet the prerequisites for all Psychology courses they enrol in.
3. Cross listed courses can be used to meet both Science and Arts requirements, including Social Science and Arts core requirements.
4. There are important overall degree planning considerations regarding the use of Arts Psychology courses that Science Psychology minors must keep in mind:
  - a. Students can use a maximum of three credits of Arts Psychology courses toward their minor. Therefore, a minimum of 15 credits in the Science Psychology major must be filled by Science Psychology and cross listed courses.
  - b. Students can use additional Arts Psychology courses to meet the Social Sciences and Arts requirements in their core.
5. Students who have taken previously offered courses including **PSYC 341**, **PSYC 428** and **PSYC 495** can use them toward this minor.
6. Arts students who choose a Science Psychology minor must comply with Bachelor of Science minor residency requirements. Science minors must complete a minimum of nine senior level MacEwan University credits, including a minimum of three credits at the 300- or 400-level.
7. Students may take any of **PSYC 405**, **PSYC 406**, **PSYC 423**, **PSYC 449**, **PSYC 467**, **PSYC 496** and **PSYC 498** for credit a maximum of two times, as long as the course topic is different each time they take it.
