 $\blacktriangleright$  Important! Please see the back of this page for planning notes.  $\blacktriangleleft$ 

This planning sheet should be used only as a **guide** for course planning and it should be used in conjunction with the Bachelor of Science Degree Planner. Remember: not all courses listed are offered each year and course offerings are subject to change. In the event of a discrepancy between the information presented on this sheet and that available on myStudentSystem, the information on myStudentSystem will be considered accurate.

## **IMPORTANT PLANNING NOTES**

- 1. **PSYC 105** can be used to satisfy either the Social Sciences or Arts core requirements in the Bachelor of Science degree. **PSYC 104** will be used to fulfill options credits.
- 2. Cross listed courses can used to meet both Science and Arts requirements, including Social Science and Arts core requirements.
- 3. There are important overall degree planning considerations regarding the use of Arts Psychology courses that Science Psychology minors must keep in mind:
  - a. Students can use a maximum of three credits of Arts Psychology courses toward their minor. Therefore, a minimum of 15 credits in the Science Psychology major must be filled by Science Psychology and cross listed courses.
  - b. Students can use additional Arts Psychology courses to meet the Social Sciences and Arts requirements in their core.
- 4. Arts students who choose a Science Psychology minor must comply with Bachelor of Science minor residency requirements. Science minors must complete a minimum of nine senior level MacEwan credits, including a minimum of three credits at the 300- or 400-level.
- 5. Students may take any of PSYC 405, PSYC 406, PSYC 423, PSYC 449, PSYC 467, PSYC 496 and PSYC 498 for credit a maximum of two times, as long as the course topic is different each time they take it.
